Klibi to leave for Taif meeting

TUNIS (R) - Arab League Secretary-General Chadli Klibi was due to leave here Tuesday for Saudi Arabia to attend a meeting in Taif Wednesday to examine the situation in Lebanon. league sources said. A six-member committee was set up last weekend by Arab foreign ministers meeting in Tunis who failed to agree on a joint Arab stand on Israel's invasion of Lebanon. A Kuwaiti newspaper, Al Watan, has criticised the league over its handling of the Lebanon issue and called for the resignation of Mr. Klibi. There is growing press criticism of the Tunis-hased league and Arab governments for their inability to take joint action against Israel's invasion of Lebanon more than three weeks ago. There have also been angry outbursts at the outcome of the foreign ministers' meeting in Tunis on Sunday to consider a possible summit on Lebanon. Only nine ministers attended and decided to set up a committee to formulate a common Arah stand.

AMMAN (Petra)—The Foreign Relations Committee of the National Consultative Council (NCC) met on Monday under Speaker Suleiman Arar. During the meeting, the committee heard a detailed explanation from Foreign Minister Marwan Al Qasem on the latest developments of the Israeli invasion of Lebanon.

Mr. Qasem explained that Israel "is determined to continue and expand the massacre it has started and has a premeditated intention to occupy and destroy the city of Beirut." He said, 'Israel would not have been able to carry out such a massacre had it not been for the absence of Arab solidarity and unity."

Negotiations at new pitch to break Beirut stalemate

BEIRUT (Agencies) — Lebanese and Palestinian leaders Tuesday continued consultations on meeting demands for withdrawal of Palestinian and Israeli forces from in and around Beirut.

Officials of the Palestine Liberation Organisation (PLO) insisted the commandos would never lay down their arms and leave the country. They said PLO. forces were ready for a fight to the death if Israeli troops encircling Beirut moved in to attack the city. But Lehanese government and diplomatic sources said the PLO had agreed in principle to "an honourable withdrawal" from the

At the same time Israel has served notice that it cannot wait indefinitely for a political solution. The consultations in Beirut extended over a wide range of the Lebanese political spectrum.

Mr. Habib met Prime Minister Shafiq Al Wazzan and Foreign Minister Fuad Boutros. President Elias Sarkis dropped out of the discussions, pleading ill health.

PLO Chairman Yasser Arafat conferred with former Premier Sach Salam, who has been serving as intermediary between the Palestinian and Lebanese leaders. Details of these discussions were

Government sources say the PLO has been asking for an Israeli withdrawal of up to 16 kilometres from its forward positions before embarking on evacuation.

In addition, the sources say, the PLO wants to maintain a political presence and a token armed unit in the Lebanon.

Just what constitutes a token unit was expected to take up much of the bargaining time. Also open to question was how many of the forces would bave to leave.

Sharon's ultimatum

Meanwhile, Israeli Defence Minister Ariel Sharon urged Palestinian forces in Beirut to lay down their arms, and warned that Israeli forces were capable of uprooting this terrorist centre."

Opening a Knesset (parliament) debate on the war in Lehanon, Mr. Sharon said Israel was not anxious to fight or to "humiliate" the PLO forces in the city.

But he added: "The terrorists had better do some soul-searching at this moment of truth."

The defence minister said sometimes the cabinet had not been unanimous and sometimes there had been heated debate but he had never failed to consult every step of the way.

Mr. Sharon said Israel was interested in the establishment of a strong, central government in Lebanon but its motive for the war was to clear PLO men out of artillery range of north Israel.

He said the war would result in a "peace triangle" comprising Israel, Lebanon and Egypt which could later extend to the whole Middle East,

Opposition leader Shimon Peres, whose Labour Party has become increasingly critical of the war's conduct, said he was against sending the army into Beirut."

For only the second time since Israel invaded Lebanon, the Knesset (parliament) was holding

a debate on the war. Public support for the campaign has eroded with critics charging the government over-reached itself by taking the invasion bey-

Ambassadors of goodwill

Royal Jordanian Falcons enchant American audiences

Exclusive to the Jordan Times

In mid-June, before a capacity crowd of some 70,000 persons attending the Detroit Willow Run Air Show, the pilots of Alia's Royal Jordanian Falcons cut upthe sky over the U.S. with a dazziing display of aerobatics, in their spanking new, bright red, single place, Pitts S-2S aircraft.

Making their U.S. dehut at Willow Run, the team performed thrilling knife edge passes, snap rolls, stall turns and much more with remarkable precision. On the ground, they greeted fans, signed countless autographs and spent hours giving child after child the opportunity tn "test-out the cockpits:of their planes." According to show officials the Falcons literally.

"turned the show upside down!" Footage of the Falcons' debut ran on two top rated television news stations (including WJBK-

TV with Live At Five; Chrysler Broadcasting Company) viewing audiences of over four million people in the Detroit metro area. In addition, the Falcons will be featured on an hour long Wes-tinghouse Broadcasting Cable Group to be aired in the Detroit region early next month.

Commenting on the team's instant popularity. Lead Pilot and Director of Operations and Training for the raicons Paul Warsaw. said: "We're the first team anywhere in the world to fly these planes (Pitts S-2S) in formation display. We're also newcomers to the U.S. air show circuit. And, the fact that we're from Jordan seems to fascinate the audience."

Warsaw noted that most spectaturs invariably get around to asking if the Falcons "really" come from Jordan.

Believe it

"I guess it's difficult for them (the crowd) to believe that a small. developing nation located in the Middle East would have an aerobatic team of our calibre." says Mr. Adnan Takruri who pilots Royal Falcon#2. "And because we are probably the only Jordanians they over came in contact with, we take our dual role, as pilots and as ambassadors of goodwill very seriously."

Pilot Radi Tall, formerly a Royal Jordanian Airforce English instructor, at the show's centre microphone, narrated much of the Falcon's premier U.S. performance. "The show's commentators have trouble pronouncing nur names," said Tall. "Also, they are not familiar with the tourism, historical and cultural attractions of Jordan. So, I fill-in whenever possible. I describe Jordan's ancient wonders. Petra, Jerash and Wadi Rumm. I try to highlight that, despile. The fact that Jordan has no oil or oil riches the economy is thriving, due to careful development of key industries... agriculture, aviation and tourism. And, most importantly, I stress to the American audiences that Jordan has always enjoyed ties with the United States," said Tall.

As the tour progresses the Falcons will make a concentrated effort to bring these messages to travel agents by hosting miniseminars from their mobile headquarters at each air show. And, by further expanding their audience beyond air show patrons to the TV viewing public by appearing on more local and national news and talk shows, as they travel from show to show.

Members of the Falcon team have adopted Americanised versions of their names to help the tongue-tied members of the U.S. press and air show personnel out when communicating. Mr. Jalal Kattab, who pilots Falcon & has begun to answer to "Jake"; Falcon Engineer Andoni Hannania to "Tony"; and Pilot Adnan Takrun to "Andy".

Alia's Detroit Station Manager Shuri Yanni came to the rescue, however, by arranging for Arab dishes to be supplied daily for the entire team.

The Falcon pilots will perform in 14 more air shows this season, and will be seen by approximately two-million Americans and Canadians. Because the Pitts Specials they fly don't have any more navigational instrumentation than necessary for aerobatics, they travel from show to show, in formation, behind a Britton-Norman Islander support aircraft. The establishment of a final peace in the Lebanon requires the complete and prompt withdrawal as well as the departure of all foreign forces except those which may be authorised by a legitimate and broadly representative government of Lebanon whose authority would be fully reestablished over all its national territory. The ten support all efforts for the achievement of these objectives.

3. For the present the ten have decided to continue their activity to bring relief to the population in distress and, in this context, call on all parties to act in accordance with Security Council Resolutions 511 and 512 and to cooperate with the responsible international agencies as well as with UNIFIL United Nations Interim Force in Lebanon). 4. Anxious to initiate, over and above the settlement of the Lebanese problem, the lasting restoration of peace and security in the region, the ten wish to see negotiations based on the principles of security for all states and justice for all peoples. All the parties concerned should be associated with these and thus should accept one another's existence.

Israel will not obtain the security to which it has a right by complete and prompt withdrawal using force and creating fairs of Israeli forces from that country accomplis but it can find this security by satisfying the legitimate aspirations of the Palestinian people, who should have the opportunity to exercise their right to self-determination with all that this implies.

They believe that for negotiations to be possible the Palestinian people must be able to commit themselves to them and thus to be represented at them. The position of the ten remains that the PLO should be associated with the negotiations.

Threshold of 'surrender'

IT IS DIFFICULT to perceive the limits of human endurance of physical and mental torture unless one is actually subjected to them. Although the threshold of surrender varies widely from one person to another, such variation is tied to a common denominator underlining all human beings.

But, when can the word "surrender" be used interchangeably with terms like temporary surrender, change in strategy, making the most out of a had situation or giving up? And does the end justify the means, even if the means were "surrender"? How does one define and draw the line with such terms and means?

Such questions are raised as one wonders on the outcome of the current crisis in Lehanon. Although the Palestine Liberation Organisation (PLO) has maintained that it will never give up its objectives, what would be the significance if it did surrender its weapons, and which term of the above would apply in such a situation? History has been full of events when leaders and peoples have given up in one way or another, only to see that their so-called surrender has been the key to their ultimate victory.

If the PLO did surrender its weapons, and if there were any shame entailed, this shame would be borne by all the PLO's friends who

previously vowed to support it and who contributed to bring about such a calamity. And if the PLO did surrender its weapons, it would not be the end of the Palestinian entity. The Palestinian spirit exists, everywhere, and is not tied down to any huilding or person. The Palestinians existed long before Beirut and long before Yasser Arafat, and will remain after Beirut and after Arafat.

It is ironic to see the Israelis fighting hard to exterminate the armed presence of Palestinians in Beirut. Even if they succeeded in disarming them, they would discover, to their disappointment, that they have been fighting in the wrong place, and that the Palestinian spirit did not exist only in Beirut.

Ironically too, the Israelis are trying to prove now exactly the contrary of what they have struggled for ages to disprove. The Israelis have always maintained that the "Jewish spirit" could not be exterminated despite all pressures it has been subjected to, some of them much more disastrous than the current Beirut crisis. If so, how can they expect to annihilate the Palestinian spirit? Should not the Jews be the first people to sympathise with the Palestinians and alleviate their suffering? After all, have they not tasted the threshold of surrender?

the mad campaign to liquidate the Palestinian people.

seeks oow to offer Lebanon's freedom and the head of the PLO as an award for the invaders under the guise of

restoring the sovereignty to a country whose sovereignty

is being violated by Zionist forces and American-made

arms. From here, we should address this question to the

international community, particularly the European leaders currectly meeting in Brussels: How can the

international community overlook the reality of organic

link between the Lebanese crisis and the Palestinian issue, and how can it allow the undermining of the Pales-

tinian people's right to existence and to carrying on their

struggle to achieve their goals? The "Beirut crisis" is

only a partial aspect of the more comprehensive and

more important issue, namely the Palestioian problem.

JORDAN'S ARABIC PRESS EDITORIALS

Al Ra'i: Evicting Palestinians will create more problems

Evidently, all the sides concerned with treating the effects of the Zionist invasion of Lebanon have restricted their activity to what we might eall the "Beirut crisis", and focused their attention on ooc question only, oamely the disarming of the Palestinian forces and making them leave Beirut. This means that it is the Palestine Liberation Organisation (PLO) and the Lebanese people, and not the Ziooist invasioo forces, who are requested to shoulder the responsibility of resolving the crisis, by making a unilateral concession stipulatiog the Lebanese people's acceptance of the occupation of their territory and the relinquishment by the PLO of its military and political presence, and consequently, all the gains it has achieved for the Palestioian people in many years of struggle and sacrifices. Although we realise the great danger posed to the Lebanese capital, we should say that Beirut is not dearer than the freedom of the Lebanese people or more important than the right of the regain their land.

Al Dustour: Jordan and Soviet Union hold similar views

His Majesty King Hussein returned to Amman on Monday at the end of a visit to the Soviet Union and talks with the Soviet leaders. These talks will enhance the relations of friendship and cooperation between the two countries. The talks primarily dealt with the dangerous situation in Lebanon, and the two sides warned against the consequences of this situation unless the Israeli aggression on Lebanon is stopped and Israel is forced to withdraw its forces from Lebanon. King Hussein's talks with the Soviet leaders affirmed that the views of the two sides were identical on the Israeli invasion of Lebanon. and on what should be done to achieve just and durable reace in the area, based on Israel's withdrawal from all

the occupied Arab territories and the recognition of the Palestinian people's right to establish their independent state under the leadership of the PLO. King Hussein's visit to Moscow is of special significance, particularly after the conspiratorial role of the United States against the Palestinian and Lebanese peoples has been revealed.

This makes the United States untrustworthy in the peace endeavours, and consequently, rejuvenates the Soviet call for convening a special international conference on the Middle East crisis, a call which Jordan has welcomed and still considers as a practical step guaranteeing the establishment of peace in the area.

SCIENCE & INDUSTRY

Much politics in science, little science in politics

PRACTISING politics and application of science have been odd features in Jordanian establishments. Science has been marred by political manoeuvring, whereas politics has not even had the chance to be marred by science. Scientists have been turned into politicians, and they excelled in their new "profession", but, alas, politicians who have been turned into scientists have not had a comparable success.

Scientific establishments in Jordan are getting engaged in politics in their relationship with other establishments, as well as in their internal affairs. Such an involvement has placed a burden on their efforts and has distracted their attention away from their goals. In some instances this involvemeot has been imposed upon them by the entangled maze of politics and bureaucracy. whilst in other cases it has been initisted and carried over by the scientists themselves, who have had a feeling of superiority, who have liked to apply scientific theories to politics, or who have become so bored with science that they opted for the "easier" and "less demanding" route of politics. Science has been the victim in the political battles waged by the scientific institutions and boosted by the inappropriate deleg-

ation of duties amongst them. The infiltration of politics into the scientific establ-

by that science into the political establishmeots. Whereas the term "scientific politics" has emerged in the scientific establishments, the term "political sciences" has disappeared from the political ones. As everybody likes to talk and practise politics, "politics" itself has been deprived of its "significance and implications, in the broad sense of the term.

The dividing line between science and politics should be clearly marked. This does not imply, of course, that the two disciplines should be segregated. One the contrary, politics should be made use of in the organisation and running of

should be the base upon which politics hinges. The interaction between these two fields has to be delicately formulated.

An example of such interaction is the utilisation of scientific theories and methods to draft long-term strategies for the political, economic, edncational, industrial, or other sectors. Some efforts have been expanded in this respect, but they have not been comprehensive nor coherent. The strategies laid out and the policies adopted have mainly been of a short-term transient nature, and have been characterised by processes of reaction rather than action. In many

cases, decisions are taken on the spot and in response to an event occurring or changing course. With experience on the part of the decision-maker,

such instantaneous decisions work, but with no experience they lead to disaster. The prior evaluation of strategic and potential alternatives to face all probable events remains the safest line of action. A chess player experiences these "transition" stages by being in the "teaction" stage during his learning period, and then moving on to more strategy planning and initiative as he correlates his scientific approach with his political management.

Despite displeasure, U.S.-Egypt relations cannot change course

By Hamza Hendawi

CAIRO - There have been increasing signs of Egyptian displeasure with the United States since Israel invaded Lebanon, but government officials say it is still too early to say whether long-term relations between Washington and Cairo will be significantly

Anti-American feeling here mounted after the the U.S. vetoed a U.N. Security Council resolution earlier this month condemning Israel for its action in Lebanon.

It swelled further following the American veto this week of a French proposal calling for an immediate Israeli pull-back from the outskirts of Beirut.

Members of Egypt's three opposition parties and the couniry's government-controlled media have accused the U.S. of collusion with Israel and claimed that the Israeli invasion was blessed by Washington.

"People here are obviously angered and frustrated by what looked like a U.S.-Israeli conspiracy against the Arab World," one university professor said.

Disappointment in the superpower which Egyptians believed to be Cairo's strongest supporter has been publicly shared by President Hosni Mubarak and his government.

"If the present situation in Lebanon persisted, U.S. relations with Arab governments would suffer." Mr. Mubarak warned. The Egyptian government. political analysts here believe, is now left with the difficult job of maintaining the U.S. as a partner in the Middle East peace process while at the same time criticising its role in Lebanon.

The government so far has adopted a "wait and see policy." hoping that the U.S. will ultimately be capable of bringing about a settlement in the Lebanese conflict.

The Minister of State for Foreign Affairs, Dr. Boutros Boutros Ghali, says the continuation of the peace process between Egypt and Israel now depends on how the Lebanese conflict is settled.

"The Israeli invasion of Lebanon was an assault on the peace process in which the U.S. is a full partner." Dr. Ghali told Reuters. Now, we just have to wait and

Lebanon decides self-rule

While in Washington earlier this month. Mr. Mubarak's top policy adviser. Osama Baz, said Cairo wanted negotiations with Israel over Palestinian autonomy restarted as soon as possible and that it would like to accelerate

The talks, aimed at granting self-rule for 1.3 million Arabs living under Israeli rule in the West achieved little progress since they tions. began more than three years ago.

Saved Yassin, director of the centre for political and strategic studies, believes the talks will resume once a solution is found to the conflict in Lebanon.

"The position taken by Washington towards the Israeli action has certainly caused some embarrassment to the government which has repeatedly asserted that the U.S. was the government which has repeatedly asserted that the U.S. was the key to a possible comprehensive settlement in the area." Mr. Yassin said.

He said he did not expect any dramatic setback in Egyptian-American relations, but said the opposition's anti-U.S. campaign would continue well after the Lebanese conflict was over.

The role of the U.S. as a full partner in bringing peace to the area would now be regarded with some distrust and suspicion, Mr. Yassin added.

The leader of the small Leftist Unionist Progressive Party. Khaled Moheiddin, said relations between the two countries would probably remain unchanged but that they were certain to suffer at the popular level.

Ideas to solve airport problems

To the Editor:

I read, with interest, Randa Habib's column regarding the situation at the airport and the subsequent letters from Miss. Lamia and Mrs. Rashid, I think we all bave one thing in common: We find the sight and plight of poor people living on side-walks and curbs without adequate shelter, food sources and security, to be upsetting and dismaying. Whether deprived of decent living standards either by war, economic hardship or poor civil planning and facilities, the people in such difficulties cannot fail but draw a response from those made aware of their suffering.

Three women, each in her own way, have said the same thing: Such a situation should be deplored and remedied. The following possibilities could be considered:

1. Make sure all expatriate contract workers (the bulk of whom are low-wage earners) receive fully confirmed airline tickets before leaving their residence, especially if they all in transit through Jordan.

2. For those ticket holders who arrive on the day of their flight, permission sohould be given to wait in the waiting hall or the departure lounge at the airport and, if their flights are delayed, be allowed to remain there until their departure. This is a right all travellers have, and should be offered to all equally. 3. Expand canteeo, waiting areas and lavatory facilities with tem-

porary structures until the new airport is opened. The new airport, itself, is an excellent opportunity for Jordan to provide adequate. if even border line services, to all travellers staying or in transit. 4. Bearing in mind that this tremendous overload is due to inadeuate present facilities due soon to be ameliorated by the new airport, coupled with extra air traffic that ordinarily goes directly to Baghdad, this situation should be an object lesson on ways to

prevent such a difficulty re-occurring.

There has been too much talk lately of "foreigners", not only against non-Arabs, but Arabs as well. There has been too much suffering of borneless and hungry very near to our home. Whether in Beirut or Jerusalem or Amman, regardless of the cause, those who are forced unjustly to go without are due our help, support and application of creative ideas. Whether a political prisoner, a bombed-out home owner or an unskilled sojourner in a far country, we can look at them with compassion and say: "There, but for God's Grace, I am."

The ministry blames the drop in arrivals last years on what it sees as oegative publicity, a sex-tour

scandal and the global recessioo. Promotion campaigns last year were hampered by a bomb explosion in Manila in the autumn of 1980 inside a convention hall where American tourist writers were meeting and publicity generated by U.S.-based opponents of Presideot Ferdinand Marcos.

'We suffered so much because of this bad publicity," one ministry official said.

"The Japanese began avoiding the country right after the sex tour scandals," the official said, referring to the controversy in Japan over package tours which allegedgly included sex.
The Japanese, who dominate

the tourist scene in much of Asia, still comprised the largest group last year. But their numbers fell by 25 per cent to 193,000.

Gerulaitis struggles, 4 women's seeds crash in series of Wimbledon shocks

Vitas Gerulaitis struggled through the third round as four women's seeds crashed in a series of Wimbledon shocks Tuesday.

Gerulaitis, the flamboyant 27-year-old New Yorker, produced his version of the great escape act to beat Czechoslovak Davis Cup player Thomas Smid 6-7, 3-6, 6-3, 6-4, 6-2.

But only the top three women among the leading eight women's seeds were left to fight out the quarter-finals.

The line-up is: Favourite Martina Navratilova v unseeded Joanne Russell, 13th-seeded Anne Smith v cither 11th-seeded Bettina Bunge or unseeded Candy Reynolds, 12th-seeded Billie Jean King v third-seeded Tracy Austin and tenth-seeded Barbara Potter v second-seeded Chris Lloyd.

The only non-American among the last eight is West German Bunge--and she lives in the United States.

Out went fourth-seeded American Andrea Jaeger. Australian number six Wendy Turnbull, American number seven Pam Shriver and number nine Sylvia Hanika of West Germany.

Jaeger was crushed by Smith 6-4, 6-2, Turnbull was demolished by King 6-2, 6-3, Shriver went out 6-2, 6-4 to Potter while Hanika became the second seeded victim of Russell, bowing out 6-4, 6-7.

Fine weather finally blessed the championships Tuesday after intermittent rain on six of the pre-

vious seven days. But officials took another step towards meeting Sunday's scheduled completion date by ruling that men's doubles third round

LONDON (R) — Third seed matches would also be reduced to Amritraj 6-4, 6-4, 4-6, 4-6, 6-3 in best-of-three sets.

John McEnroe and Jimmy Connors, the top two men's seeds were not in action, but six other seeds joined them and Gerulaitis in the fourth round.

Gerulaitis said he was a bit lucky to escape against Smid. "1 had no rbythm for the first two sets," he said.

But then his serve started humming, his first volley was con-stantly decisive and his returns were always threatening.

Number five seed Johan Kriek of South Africa beat American Peter Rennert 4-6, 6-3, 6-4, 6-1, number six Gene Mayer had an easy 7-6, 6-3, 6-0 victory over fellow-American Larry Stefanki, and French Open champion Mats Wilander, the 17-year-old Swede, continued his remarkable adaptation to grass by defeating Czechoslovak Stanislav Birner

Czech's national squad to be rebuilt

VIENNA (R) - Czechoslovakia's national soccer squad will have to be entirely rebuilt following its failure in the World Cup tournament in Spain, an official sports body said Tuesday.

A report by the central committee of the Czechoslovak Physical Training Union, quoted by the Communist Party newspaper Rude Pravo, strongly criticised the performance of the team, eliminated from Group Four after failing to win any of their matches against Kuwait, England and France.

"The coaches and the whole team must discover the decisive causes of the failure and should apparently reach the conclusion that the situation requires...a fundamental reconstruction of the team and of the concept of play," the report said.

The Czechoslovak squad returned home quietly last Friday, the day after their final match, a 1-1 draw against France.

Cool reception for Kuwait's national squad

KUWAIT (R) - Knwait's World Soccer Cup team arrived home from Spain Tuesday to a cool reception, with one newspaper demanding an inquiry into the affairs of the country's football association.

The usual boisterous welcome of flowers, music and a motor cavalcade into the city for successful teams was missing when the players arrived, to be met only by members of their families.

Kuwait drew with Czechos lovakia but lost to France and England and failed to qualify for the second round. The Al Rai Al Aam newspaper,

which called fur the inquiry, said the Kuwaiti F.A. did not achieve the desired results. . The controversial match with

France resulted in the Kuwaiti Football Association being fined 25,000 Swiss francs (\$12,000) and its President Sheikh Fahd Al Ahmad Al Sabah being censured for "unsporting behaviour."

The match was halted for several minutes when the Kuwaitis protested against a French goal which the referee then disallowed.

Argentina's World Cup defence in tatters following 2-1 defeat by Italy

BARCELONA (R) - Argentina's World Cup defence was in tatters Tuesday night after they were beaten 2-1 by Italy in the opening World Cup Group C second-round match in the Sarria

The outcome enforced the growing belief that the World Cup ieweller should start engraving Brazil's name on the trophy. Brazil are the third team in the group and despite their victory. Italy did little in a niggling match to suggest they will beat the tournament favourites here on Mon-

Marco Tardelli and Antonio Cabrini scored Italy's goals in the 56th and 68th minutes before Argentine captain Daniel Passarella pulled one back six minutes

from time. Moments later Argentine defender Americo Gallego was sent off for a crude foul. The result means Argentina

have virtually no chance of reaching the semi finals. To do so they must beat Brazil by a wide margin on Friday.

For the most part the match that marked the World Champions' probable exit made a sorry spectacle. Romanian referee Nicolae Rainea awarded 31 fouls and booked five players in a torrid first

Rainea, who looked as confused as drunk trapped in a revolving door at times, collected a glittering array of names-Italians Paulo Rossi and Claudio Gentile, and Argentines Diego Maradona, Osvaldo Ardiles and Mario Kempes.

Rossi, Maradona and Ardiles incurred Rainea's wrath by arguing, Kempes was shown the yellow card for a foul on Tardelli and Gentile joined the unhappy band for knocking Maradona to the

The fouls ranged from petty to spiteful to cynical and Rainea must shoulder some of the blame for not asserting his authority in what was always going to be a

Tardelli's goal was classically simple. He and Carlo Antognoni and Bruno Conti carved the Argentine defence apart and Tardelli raced in from the left to sweep the ball wide of Ubaldo Fil-

Cabrini's second was just rewward for he was one of the few men on the pitch who tried to play football throughout.

Rossi rattled a shot off Fillor's leg, Conti collected the rebound and cut a pass back for Cabrini to thrash the ball high into the net. Passarella's consolation effort came direct from a stinging free

kick from 22 metres. Sixty seconds later Gallego was trudging disconsolately from the field for upending Tardelli and with only 10 men on the pitch the reigning champions were unable to secure the goal they so desperately sought.

Both sides came close to scoring from the numerous free kicks.

Giancarlo Antognoni, the most cultured and sporting performer afield, almostut Italy ahead in the fifth minute with a cannonhall drive which whistled narrowly over the bar.

Maradona seldom lived up to his reputation but he did curl one sweet free kick onto Dino Zoff's right-hand post in the 65th minute.

Seconds later Passarella also struck the woodwork with a bullet header which the 40-year-old Zoff did well to tip against the

Argentine manager Cesar Luis Menotti criticised Romanian referee Rainea when he said: "Maradona was fouled at least 20 times by Gentile and all he received was a caution.

"Italy surprised us by playing attacking football and we failed to adjust to their unusual approach."

Menotti refused to accept that this result marked the end of Argentina's reign as World Champions and added: "You will see a different team against Brazil

Italian manager Enzo Bearzot was naturally delighted by his team's success but was also unhappy at the referee's handling of the game.

Bearzot said: "Passarella's goal should not bave been allowed. He took the free kick while the referee was still pushing the defensive wall back. Technically Argentina were the better team but we were the more aggressive.

Boniek of Poland sinks Belgium with a three-goal virtuoso display

Zbigniew Boniek turned on a attacking magic of Poland, who three-goal virtuoso display here Monday night to sink Belgium 3-0 in the opening Group 'A' second round match of the World Cup.

The 26-year-old forward, his curly red hair flashing like a warning light each time he touched the ball, destroyed the sorry Belgians with splendid goals in the third. 6th and 55rd minutes.

BARCELONA (R) - Poland's years ago, had no answer to the served notice to the Soviet Union. the other group contenders, that they have regained their finest

> It was clear from the start that it was to be Boniek's night when he gave Poland the lead with their first attack.

Boniek, showing why Italian club Juventus have just paid two million dollars for his talents, thundered a rising shot past Theo Custers in the Belgian goal after Lato had laid the ball back from the byline.

Poor Custers, making his World Cup debut in place of the injured Jean-Marie Pfaff, first touched the ball when he picked it out of the

But worse was to come. After 26 minutes. Janusz Kupcewicz hit a perfect cross from the right which Andrzej Buncol headed back and there was Boniek to nod the ball over the dazed keeper's head.

The Poles, who were constructing their attack with the precision of a grand master moving pieces on a chessboard, almost got a third just before halftime.

Buncol, who had made the left wing his private territory, romped past Michel Renquin and crossed but Włodzimierz Smolarek's drive rebounded off the foot of the post.

Boniek completed his hat-trick and sealed Poland's triumph in the 53rd minute. Poland tore holes in a Belgian

defence sadly at sea without the cool piloting of Eric Gerets, who has gone home suffering the effects of a collision in last week's game against Hungary with his goalkeeper Jean-Marie Pfaff, also ruled out Monday night.

Belgian manager Guy Thys brought 37-year-old captain Wilfried Van Moer in to start his first match of the finals, but it was the slightly younger--although balder--Grzegorz Lato who won the midfield battle.

The tireless forward, who knows Belgian soccer from his years with the Lokeren club, had a hand in two of the goals and was a constant menace in his 100th international. Van Moer, his legs leaden, came

off at half time and was replaced by François van der Elst but the change failed to improve Belgium's luck. They came closest to pulling a

goal back after 68 minutes when Erwin Vandenbergh hit the bar. Smolarek was booked for a fouf on Luc Millecamps in an isolated

incident in an otherwise good natured match. Later Boniek paid tribute to the teamwork that had enabled him to score three goals and added: "Our strength was in the counter-

It is simply that the seven-million dollar man has a different publicity contract from the national team and must hide the distinctive trade-mark from the cameras.

Another shirt tale--Barcelona is awash with the green and yellow of Brazil after the Brazilian Embassy handed out 6,000 team jerseys. The players have a quota of 10 each to give to fans.

Danish Prime Minister Anker Joergensen, who will become president of the European council for six months on Thursday, told journalists he would go to the United States to express the Community's grave concern over the recent trade measures.

A French spokesman quoted President François Mitterrand as telling the summit meeting that the Community should make it absolutely clear to Washington that its present trade policies were unacceptable in Europe.

In New York Monday, British Junior Trade Minister Peter Rees described the U.S. duties on steel exports from the Community as an attempt to export unemployment from the United States to Europe.

Geneva strategic arms talks begin

GENEVA (R) — The United States and the Soviet Union began negotiations Tuesday on scrapping thousands of nuclear weapons in the biggest disarmament cuts ever contemplated.

Opening the first strategic arms talks for three years, both U.S. and Soviet diplomats said they were guardedly optimistic agreement was possible despite serious East-West tensions.

U.S. chief delegate Edward Rowny and Soviet negotiator Viktor Karpov met privately to launch what both sides called a highly complex and possibly protracted bargaining process.

The two men, fluent in each other's languages, are veterans of a strategic arms dialogue that started 13 years ago. They spent nearly seven years together in earlier negotiations.

U.S. officials believe this past association will help them get to grips relatively quickly with the problems involved in the "sub-

Yugoslavia winds up party congress

BELGRADE (R) - Yugoslavia's ruling Communist Party Tuesday winds up its four-day congress which has heard sharp criticisms of the economy, the bureaucracy and of neighbouring Albania.

The congress will elect a new central committee. which will in turo elect a new 23-member policy-making party praesidium, only six of whose current members are expected to be re-elected.

While reaffirming the main strategic lines of Yugoslavia's independent and non-aligned foreign policies and its unorthodox brand of Communism. delegates have included some sharply critical comments on the state of the economy and on bureaucratisation of the party and the state.

The congress devoted much attention to relations with Albania. Delegates said that although Yugoslavia wanted friendly relations with its neighbour, it rejected what they said were attempts by Tirana to interfere in its internal affairs.

Heaves to left, right and centre in El Salvador's tug-of-war

By Bernd Debusmann Reuser

SANSALVADOR — Armed and advised by the United States, El Salvador's armed forces are fighting left-wing insurgents in a worsening civil war which neither side can bope to win.

"There can be no purely military solution to the conflict," said Defence Minister Jose Guillermo Garcia in an interview.

"It has to be solved through political as well as military means. But as long as the subversives enjoy support from outside, from Cuba and Nicaragua, they will continue to fight us." In the left-wing view of a con-

flict which has killed more than 30,000 people in the past two and a half years, prospects for negotiations have been dimmed by continued U.S. military aid for the government after elections which strengthened the extreme right

A relative bull in the war followed the March 28 elections, but the fighting gathered momentum again early in June and Gen. Garcia was speaking against the background of some of the fiercest battles since El Salvador's deeprooted economic and social problems crupted into civil war in 1979.

Control of the assembly went to a coalition of right-wing parties including many of those politicians most adamantly opposed to peace talks with the rebels, who promptly vowed to fight on. Early in June, guerrillas overran

the northeastern town of Perquin. a move which prompted the army to dispatch about 3,000 of its best men to the area to flush them out. The government troops included the Belloso battalion, the first Salvadorean unit trained in

By a military rule of thumb, a conventional army needs a 10-1 superiority to wipe out a guerrilla force. Military experts say the two sides are evenly matched now, with the numerical inferiority of the insurgents offset by jungle terrain ideally suited for guerrilla

In addition, the army would like the U.S. to train three more battalions in a continuation of the programme under which the Belloso battalion was trained at Fort Bragg and two others in El Salvador by U.S. advisers.

However, the U.S. Senate's foreign relations committee recently cut about \$100 million from the military and economic aid package President Reagan had sought for El Salvador, a country he considers vital in his battle against Communism.
